

Teton Behavioral Health Alliance

Overall Goals		
<ul style="list-style-type: none"> • Focus on behavioral health equity, through targeted outreach to Latine/Spanish-speaking community members, promotion of the Culturally and Linguistically Appropriate Services (CLAS) Standards, and investment in the behavioral health workforce * • Improve data collection and analysis by modifying survey instruments and augmenting the surveys with additional qualitative data to build on the findings * 		
Prevention Goals	Treatment Goals	Crisis Goals
<ul style="list-style-type: none"> • Increase prevention and early intervention activities * • Increase community connection and belonging especially among and within historically marginalized populations (e.g., LGBTQ+/gender diverse, Latine) • Increase familiarity and comfort in talking about behavioral health to combat stigma • Increase understanding of when and how to get care • Decrease the importance of alcohol and other drugs in social lives for adults and youth • Increase workplaces supports for behavioral health 	<ul style="list-style-type: none"> • Increase awareness of where to go for care so that all community members can navigate the behavioral health care system in Teton County • Improve the ease with which community members identify and connect with the behavioral health services they need • Increase availability of affordable behavioral health services, especially for low-income, underinsured, and/or uninsured individuals • Explore the feasibility of bolstering peer support and other services from non-licensed behavioral health professionals * • Increase availability of culturally responsive behavioral health services, especially for the Latine community • Increase the diversity of behavioral health providers to reflect the diversity of our community • Bolster the mental wellbeing of behavioral health providers • Provide learning opportunities for behavioral health providers 	<ul style="list-style-type: none"> • Map and assess the existing continuum of behavioral health care * • Conduct a market analysis and assess the feasibility of developing new crisis services and/or facilities (e.g., mobile behavioral health unit, intensive outpatient services, detox center) • Increase the extent to which people in crisis are experiencing patient centered, culturally competent, and trauma-informed services • Increase continuity of care after crisis so that individuals receive ongoing community support for their recovery

*These are the recommendations from the 2024 survey, they will formally be aligned with the Teton Behavioral Health Alliance's 2025 work plan.
